Twelfth meeting of the JISC

Bonn, Germany – 11 September 2008

UNFCCC

UNITED NATIONS FRAMEWORK CONVENTION ON CLIMATE CHANGE

Background

JISC 11

- Discussion of need to revise JI PDD forms (incl. guidelines for users)
- Related inputs by the DOE/AIE coordination forum
- Request to launch call for public inputs
- Request to address the issue to the DOE/AIE coordination forum

Call for public inputs

- 1 input by stakeholder
- 2 inputs by IEs

Compilation

Input		
Topic	Description	Reason
General	The discussion of possible revisions of the JI PDD forms (incl. guidelines for users) should be embedded in a broader discussion of JI Track 2 related issues . For this purpose the establishment of a dedicated working group is suggested to develop a draft JI “validation and verification manual” .	Interdependencies of JI PDD forms with other JI Track 2 related issues
	A revision of the structure of the JI PDD forms in line with the structure of the most recent versions of the clean development mechanism (CDM) forms is suggested.	Clarity Quality
	Sections should be better differentiated (e.g. sections presenting the methodological approach, the description of the baseline scenario, the formulae used, etc.)	Clarity
	The project title should be indicated on the first page of a JI PDD.	Clarity
Presentation of information	Data and parameters monitored should be presented in tabular format (e.g. format used in the CDM PDD forms).	Completeness of information
	Data and parameters available at determination should be presented in tabular format (e.g. format used in the CDM PDD forms).	Transparency
	A new sub-section should be included to present proofs of additionality .	Completeness of information
	A new sub-section should be included to indicate the project category , stating the corresponding sectoral scope .	Transparency

Compilation (cont.)

Input		
Topic	Description	Reason
Deviation from an approved CDM methodology	If an approved CDM baseline and monitoring methodology is applied, deviations should be indicated in a new template/annex to the JI PDD forms.	Completeness of information Transparency
Application of a project specific methodological approach	A new template/annex to the JI PDD forms , in line with the CDM form to be used to propose new baseline and monitoring methodologies, should be developed and used if a JI specific methodological approach is followed.	Completeness of information Transparency
Additional guidance for users	Additional guideline should be given regarding the information to be provided in section A.2 of the PDD forms.	Completeness of information
	Additional guideline should be given in section B of the JI PDD forms regarding the requirements for establishing a baseline (e.g. that a baseline shall be established on a project-specific basis and/or using a multi-project emission factor).	Clarity
	Additional guideline should be given in section B of the JI PDD forms indicating the option to apply the most recent version of the “Tool for demonstration and assessment of additionality” approved by the CDM Executive Board	Clarity
